MEMORANDUM

TO: BOARD OF COUNTY COMMISSIONERS

FROM: ROBERT N. STANGER, COUNTY ENGINEER 309

THROUGH: AMY H. CANNON, ASSISTANT COUNTY MANAGER

SUBJECT: APPROVAL OF AUTHORIZATION FOR ANTICIPATED CONTRACT AWARDS DURING JULY 2006

BACKGROUND:

There are two projects for which bid awards are anticipated to occur during the absence of Board of Commissioners meetings in July and early August 2006. These are the Lake Upchurch Dam Restoration Grading Project and the Gillespie Street Parking Lot Improvement Project. In order to prevent delays in moving forward with these projects, the County Engineer and management request that the Board authorize the County Manager to approve the bid awards provided the low bids are within the project budgets. The bid awards will be presented to the Board at its August 21, 2006 meeting for confirmation. Budget revisions to appropriate the necessary monies to fund these projects are pending Board approval at its June 19, 2006 meeting.

The Board took similar action last June for the site grading work on the Animal Control and Sheriff's Training Center Project.

RECOMMENDATION/PROPOSED ACTION:

The recommendation of the County Engineer and management is to authorize the County Manager to approve bid awards for the Lake Upchurch Dam Restoration Grading Project and Gillespie Street Parking Lot Improvement Project provided the low bids are within budget.

The proposed action by the Board is to follow the staff recommendation.

MEMORANDUM

TO: BOARD OF COUNTY COMMISSIONERS

FROM: ROBERT N. STANGER, COUNTY ENGINEER BOB

THROUGH: AMY H. CANNON, ASSISTANT COUNTY MANAGER

SUBJECT: AMENDMENT #2 - AGREEMENT WITH SCHNABEL ENGINEERING LAKE UPCHURCH DAM RESTORATION PROJECT

BACKGROUND:

The Board of Commissioners recently authorized staff to include as a part of the special assessment project for Lake Upchurch Dam Restoration, the work required on the earthen berm on property owned by Bayshore Properties LLC. Presently the berm is considered by NCDENR Dam Safety and FERC a part of the jurisdictional dam requiring modifications prior to impounding water in the lake. The plan is to raise the height of the berm and place fill behind the berm to essentially eliminate the berm. The placement of fill material must be monitored and tested by the engineer of record, Schnabel Engineering, as a condition of the authorization to construct received from the regulatory agencies on May 8, 2006

Attached is a copy of Amendment #2 to the engineering agreement with Schnabel Engineering South to provide materials testing and inspection services required for the earthwork on the berm. The total not to exceed fee for these services is \$5,000. Sufficient monies are available in the project budget to fund this request. The County Attorney's office has reviewed the amendment for legal sufficiency.

RECOMMENDATION/PROPOSED ACTION:

The recommendation of the County Engineer and management is to approve Amendment #2 to the agreement with Schnabel Engineering South for additional services on the Lake Upchurch Dam Restoration Project in the amount not to exceed \$5,000. The total not to exceed contract amount will be revised to \$212,000.

The proposed action by the Board is to follow the staff recommendation.

AMENDMENT #2

DATE: JUNE 19, 2006

The Agreement for engineering services for the Lake Upchurch Dam Restoration Project by and between the County of Cumberland and Schnabel Engineering South dated June 21, 2004 shall be amended as follows:

The engineer shall provide additional quality control testing and inspection services related to the right abutment fill area (berm) located on property owned by Bayshore Properties LLC in accordance with the proposal dated May 11, 2006 and incorporated herein as Exhibit "D". The fee for services rendered shall not exceed \$5,000 without prior written authorization from the County.

The total Not-To-Exceed fee for engineering services rendered under this agreement shall be increased from \$207,000 to \$212,000.

THIS AMENDMENT entered into as of the day and year first written above.

Cumberland County, North Carolina Post Office Box 1829 Fayetteville, North Carolina 28302

Attention: Mr. Robert N. Stanger, P.E. Cumberland County Engineer

Reference: ADDITIONAL QUALITY CONTROL TESTING Right Abutment Fill Area Lateral Breach Remediation Lake Upchurch Dam Cumberland County, North Carolina Schnabel Proposal No. P6370027

Dear Mr. Stanger:

Schnabel Engineering South, P.C. (Schnabel) is pleased to provide this proposal for additional quality control testing services at the referenced project. This proposal presents our understanding of this portion of the project, our Scope of Services, and a recommended Budget for the additional work. We understand that this work will be performed under the agreement currently in place with Cumberland County executed on November 7, 2005.

BACKGROUND

The Federal Energy Regulatory Commission (FERC) and the North Carolina Department of Environment and Natural Resources (NC DENR) share the regulatory burden for the subject dam. Both agencies have stipulated that the berm, which comprises the right (looking downstream) end of the dam, must be raised to the Top-of-Dam elevation of 125.0 feet as a part of the referenced remediation. The currently proposed plan, which has been accepted by the local property owner, is to raise the ground elevation in the general area to elevation 125.0 feet by adding fill. This work is to be accomplished as part of the proposed remediation already approved by FERC and NC DENR. As such, our proposed monitoring of the fill placement will be provided as an integral part of our dam construction observation services.

SCOPE OF SERVICES

The quality control testing of the proposed fill will require that we determine the characteristics of the proposed fill, monitor foundation preparations and perform regular testing of the in-place compacted material. These tasks are outlined below.

Task 01 – Evaluate Proposed Fill Materials

We propose to obtain representative samples of proposed fill materials for laboratory testing. The samples will be tested for optimum density characteristics by methods described in ASTM D698. The samples will also be classified in the laboratory by methods described in ASTM D2487. We anticipate testing a minimum of two complete samples and up to five samples depending on the extents of the proposed fill materials. We will prepare a report of laboratory analyses and results. We will also make recommendations for the preparation of foundation areas and the placement of fill materials. We will submit copies of the report to FERC, NC DNER, and Lake Upchurch Power, Inc. for their records.

Task 02 – Field Inspection Services

Our resident technician for the project will perform observations of foundation preparation, field sampling of compacted fill materials, field density testing on sampled materials, and comparisons of field results with laboratory testing results. The testing results will be reported and recorded in accordance with the approved Quality Control Inspection Program for the project.

BUDGET

Ċ

The following proposed budget is based on our experience with similar projects and our understanding of the requirements for this specific project.

Task 01 – Evaluate Proposed Fill Materials	\$ 3,200
Task 02 – Field Inspection Services	\$ 1,800
TOTAL FOR ADDITIONAL TESTING	\$ 5,000

We recommend that the amount of \$5,000 dollars be added to the original contract under Task 12 – Construction Observation.

EXCLUSIONS

Schnabel has performed no geotechnical explorations or evaluations of the subject area to be filled. Therefore, we will offer no guarantees or certifications expressed or implied related to the suitability of the subject area for any purpose. This proposal does not include work related to environmental permitting or sediment and erosion control permitting. Additional services related to these issues can be provided under additional agreements.

ACCEPTANCE

We understand that you will provide written acceptance of this proposal by way of amendment to the original contract with Schnabel. Please advise of any further documentation or submittals required from us at this time.

3

CLOSURE

We appreciate the opportunity to provide additional services on this project. Please contact us with any questions regarding this proposal.

Sincerely,

Schnabel Engineering South, P.C.

CONTRACT FOR INTERLOCAL UNDERTAKING

THIS CONTRACT, made and entered into this ______ day of ______, 2006, by and between the CITY OF FAYETTEVILLE, a municipal corporation organized and existing under the laws of the State of North Carolina (hereinafter the CITY), party of the first part, and the COUNTY OF CUMBERLAND, a body politic and corporate of the State of North Carolina (hereinafter the COUNTY), party of the second part, and the CITY OF FAYETTEVILLE PUBLIC WORKS COMMISSION (hereinafter the "PWC"), party of the third part;

WITNESSTH:

WHEREAS, the governing bodies of all parties have previously found and determined that it is in the public interest and for the public benefit to operate a 800 MHz TRUNKED VOICE RADIO & DATA SYSTEM (hereinafter the "RADIO SYSTEM") for use by units of the state and local governments within Cumberland County and its municipalities, cities, and towns;

WHEREAS, the governing bodies of all parties have found and determined that it is in the public interest and for the public benefit to upgrade the RADIO SYSTEM to the SmartZone System Release 4.1 as shown on Exhibit A (hereinafter the "UPGRADE");

WHEREAS, the North Carolina General Statutes in Chapter 160A, Article 20, Part I, provide that units of local government may enter into a contract in order to execute an undertaking (hereinafter the "Contract") providing for the contractual exercise by one unit of any power, function, and right of another unit; and

WHEREAS, the governing bodies of the COUNTY and the CITY and its PWC have by resolution duly recorded in their minutes ratified provisions of this Contract.

NOW THEREFORE, for and in consideration of the mutual covenants herein contained and of the mutual benefits to result therefrom, the parties hereby agree as follows:

1. <u>Purpose</u>: The purpose of this Contract is to establish an interlocal undertaking, as provided in N.C.G.S. Chapter 160A, Article 20, Part I, whereby the CITY, acting on behalf of the CITY, COUNTY and PWC, shall execute a separate contract with Contractor (Motorola, Inc.) for the UPGRADE.

2. <u>Duration</u>: The term of this Contract shall be for a period of five (5) years, from July 1, 2005, and shall be renewable thereafter for additional periods of five (5) years upon the mutual consent of the CITY, COUNTY and PWC managers, so long as the parties hereto exist and have the power to make and maintain such an agreement, unless this Contract is sooner terminated.

3. Joint Agency: No such agency shall be established.

4. <u>Personnel</u>: All personnel necessary to manage the RADIO SYSTEM shall be employees of the CITY, and subject to CITY personnel ordinances and policies.

- 5. <u>Finances</u>:
 - (a) The CITY shall be responsible for selecting and entering into financing for the UPGRADE to the RADIO SYSTEM.
 - (b) The CITY, COUNTY, and PWC shall be responsible for paying their respective shares of the debt service for Fiscal Years 2006 and 2007, arising from the financing of the UPGRADE, based on the number of "public safety" radios in service as shown in Exhibit C. If the number of "public safety" radios in service for each party changes by 10% or more as of December 31 of each fiscal year, beginning on December 31, 2006, when compared to Exhibit C, the respective shares of debt service for each party will be recalculated and

- 2 -

used as the basis for allocating debt service in the following fiscal year[s]. Each party's respective shares of the debt service shall be determined by dividing the applicable number of "public safety" radios for each of the three parties by the total number of "public safety" radios for the CITY, COUNTY and PWC. For example, if the CITY has 1,000 radios, the COUNTY has 750 radios and PWC has 300 radios, then the CITY's respective share of the debt service would be 1,000/2,050 or 48.78%.

- (c) The COUNTY and PWC shall pay to the CITY their respective share of the debt service payment within 10 business days of receipt of a City invoice; however, no payment will be due more than five days before the date the debt service payment is due to the financing agency.
- (d) Exhibit B sets forth items other than the UPGRADE to be acquired for the separate use of the parties. The CITY shall pay the vendor for all items shown on Exhibit B. Items shown on Exhibit B will not be included in the financing of the UPGRADE. The CITY shall invoice the COUNTY and PWC for their individual items identified on Exhibit B acquired by the CITY for them. Payment shall be due from the COUNTY and PWC within 10 business days of receipt of a City invoice.
- (e) The CITY, COUNTY and PWC shall pay for all change orders required to complete the UPGRADE. The CITY shall pay the vendor's invoices for any such change orders and shall invoice the COUNTY and PWC for their respective pro rata shares of the cost of the change orders. Payment shall be due from the COUNTY and PWC within 10 business days after receipt of an

invoice from the City. The CITY, COUNTY and PWC shall pay to the CITY a monthly amount per radio to cover the cost of the annual maintenance and operation of the RADIO SYSTEM.

(f) Any other unit of local government that continues to be or becomes a user of the RADIO SYSTEM pursuant to the terms of this Contract shall pay to the CITY a monthly amount per radio to cover the cost of the annual maintenance and operation of the RADIO SYSTEM

6. <u>Ownership</u>: The CITY shall own or lease appropriate space upon which to install and maintain any and all equipment necessary to operate the RADIO SYSTEM.

7. <u>Amendment</u>: This Contract may be amended at any time by the mutual consent of the CITY, COUNTY and PWC managers. Any other unit(s) of government that agree(s) to the terms of this Contract may be added and made a party to this Contract, by the written consent of the CITY, COUNTY and PWC managers and approval of the governing body of the joining unit(s) of government or, in the case of a joining state agency, the approval of the chief administrative officer of the state agency.

8. <u>Termination</u>: This Contract may be terminated by the joint written agreement of the CITY, COUNTY, and PWC managers, upon one year's written notice to all parties who are parties at the time of the notice to terminate. Any other unit of government may withdraw upon one year's written notice to all other parties at the time of the notice to terminate.

- 9. <u>Additional provisions</u>:
 - (a) Prior to the renewal of any five (5) year period, or if an increase in the monthly cost is required, the CITY, COUNTY and PWC managers shall agree upon any adjustment in the monthly charge payable by any party, based upon actual

- 4 -

past or reasonably projected maintenance, rental costs, and any other operating costs, or costs of improvements. The CITY, COUNTY and PWC managers shall agree in advance upon any expenditure for an improvement, valued at \$50,000 or more, to the RADIO SYSTEM. If the County or PWC disputes any portion of the new rate, the parties will give written notice within 30 days of notification of the increase. The parties, however, will continue to pay any portion not in dispute, and any such dispute must be resolved within 90 days and any disputed amounts determined payable thereafter will be paid retroactive to effective date of the increase. Each participating unit of government shall have 30 days after written notice of any change in the monthly rate to agree to continued use of the RADIO SYSTEM at the new monthly rate. A participating unit of government that does not agree to the new monthly rate will be denied use of the RADIO SYSTEM effective 30 days after a written notice of service termination is sent by the CITY to the participating unit of government, and shall be deemed to have withdrawn from participation in this Contract as of such date.

- (b) The CITY will perform all preprogramming following established current guidelines.
- (c) Notices concerning this Contract shall be in writing, delivered either personally or by certified mail return receipt requested, shall be addressed as follows:

One provision of the interlocal agreement provided that the County would begin as of July 1, 2005 to remit to the Town all County recreation tax revenues collected from within the Town limits to be applied by the Town to operate the recreation center and to provide Hope Mills-sponsored parks and recreation services. The Town agreed to continue participating in the County's recreation district during the term of the interlocal agreement. The Town also agreed to permit County residents living in unincorporated areas in the vicinity of the Town to register and participate in programs offered through the Hope Mills Parks and Recreation Department and/or to utilize the Hope Mills Recreation Center amenities on the same terms as any Town resident.

At the request of the Town, on June 6, 2005 the Board of Commissioners approved an amendment to the Use and Operating Agreement to provide that the County delay until January 1, 2007 remitting to the Town the recreation tax revenues collected from within the Town limits.

The Town has now requested to further amend the Use and Operating Agreement to delay for another year remitting to the Town the recreation tax revenues collected from within the Town limits.

RECOMMENDATION: Approve Second Amendment to the use and operating agreement to provide that the County will begin to remit to the Town the recreation tax revenues collected from within the Town limits as of January 1, 2007.

Re:	Request to Extend Interlocal Agreement for Hope Mills Recreation

Dear James:

As discussed in our meeting on June 8, 2006, this letter is to request the Cumberland County Board of Commissioners consider extending our agreement for recreation services to December 31, 2006 (to become effective January 1, 2007).

My staff met again today with Mr. Robert Barefoot, Mr. Larry Philpott, and Ms. Karen Brady to address concerns common to both Hope Mills and Fayetteville. I am persuaded to allow six more months for better preparation in anticipation of taking over these programs.

I feel that this extension will be most beneficial to all parties concerned. If you would please, share this request with the Board at their next regular meeting. My thanks in advance.

Sincerel

Roy Davis Taylor AICP Town Manager, Town of Hope Mills

NORTH CAROLINA CUMBERLAND COUNTY

WITNESSETH:

WHEREAS, the parties also by entering into the Agreement desired to more effectively deliver parks and recreation services to citizens of the County in and in the vicinity of the Town.

NOW, THEREFORE in consideration of these premises the County and the Town do now agree to enter into the following First Amendment to the Agreement as follows:

1. The date "July 1, 2005" appearing in Section 2 of the Agreement is deleted and the date "January 1, 2007" inserted in lieu thereof.

2. Except as expressly amended herein, all other provisions of the Agreement shall remain in full force and effect.

MEMORANDUM

TO: BOARD OF COUNTY COMMISSIONERS

FROM: ROBERT N. STANGER, COUNTY ENGINEER Bord

THROUGH: AMY H. CANNON, ASSISTANT COUNTY MANAGER

SUBJECT: CHANGE ORDER ACC-1 ANIMAL CONTROL CENTER PROJECT

BACKGROUND:

Attached is a copy of Change Order ACC-1 in the amount of \$58,708 for Bordeaux Construction Company to provide additional cages in the large dog general population and large dog adoption kennels in the Animal Control Center. Under the base bid, the contractor provided 32 cages in each of the kennel units, however each kennel will hold an additional 16 - 4'x8'x6' cages. This change order is to provide 32 cages complete with bowls and brackets for the complete build-out of the large dog kennel units.

Given the recent increase in the volume of large dogs being housed in the existing facility and the number of violent dogs which must be kept in individual cages, the Animal Control Director requested additional funds to purchase the extra cages needed in the new facility. The Board appropriated \$55,000 in the FY2007 Budget. However, there are cost savings to be realized if the County can purchase the additional cages at this time. The difference of \$3,708 can be funded from the project contingency.

This information was presented to the County Facilities Committee it's June 13, 2006, meeting at which time they unanimously recommended approval of the change order. The change order has been reviewed by the County Attorney's Office for legal sufficiency.

RECOMMENDATION/PROPOSED ACTION:

۲,

.

.

The recommendation of the County Facilities Committee, County Engineer, Animal Control Director, and management is to:

- 1. Approve Change Order ACC-1 for Bordeaux Construction Company in the amount of \$58,708 and increase the contract amount for the Animal Control Center Project to \$4,140,480.
- 2. Approve the associated budget revision.

.

The proposed action by the Board is to follow the staff recommendation.

VOTE: UNANIMOUS

This action will be presented to the full Board of Commissioners on June 19, 2006.

Robert Barefoot gave an update on a recent meeting in Raleigh regarding the Cape Fear River Trail. It was attended by a Cumberland County delegation to include Commissioner Wheatley, members of the Parks & Recreation Advisory Board, a representative from the Clean Water Trust Fund and local legislators. A plan has been submitted to the Clean Water Trust Fund to extend the river trail from Clark Park to the Botanical Gardens. There is a \$2,000,000 House bill earmarked for this project.

3. Status Report on County Construction Projects

Bob Stanger gave an update on the Public Health facility renovations. The staff is evaluating the option of relocating the Health Department agencies into a temporary facility while renovations are being made to the existing facility. This would allow the work to be accomplished over a shorter duration and under a single contract. The architect has suspended work on the project pending a decision by the Board regarding the scope of the project.

The Board awarded a contract to Grahams Construction in the amount of \$800,980 for the Courthouse Lobby Expansion Phase of the Courthouse Security and Plaza Renovations Project. Work is anticipated to begin in late June. The construction time for this phase is 130 days. The second phase includes plaza renovations. Plans and specifications are being developed and bids will be let in August 2006.

Construction began in December 2005 on the Animal Control/Sheriff's Training Center. Significant work accomplished in the last 30 days in the Animal Control Center includes: pouring floor slabs in the kennel areas and vehicle bay – 100% complete; erecting metal building for the Animal Control barn – 90% complete; masonry walls – 30% complete; hollow metal frames – 30% complete; plumbing, mechanical and electrical wall rough-in – 30% complete; metal building erection and insulation – 50% complete; hollow metal frames – 95% complete. The subgrade work on the Sheriff's Driver Training Pad is 100% complete.

Construction began in December 2005 on the Crown Arena/Theater Renovations. The atrium is 75% complete and the total project is approximately 70% complete.

The contractor has completed the installation of the Russell Street parking lot and it is ready for use. Outstanding work items to be completed include installing the irrigation controller and activating the irrigation system. They are working with PWC for water and electrical services needed for the irrigation system.

Authorization to proceed with construction of the Lake Upchurch Dam Restoration Project was received from the regulatory agencies on May 8th, and the notice to proceed was issued to the contractor. Significant work completed to date includes construction staking, installing erosion control measures, removing the fuse-plug foundation and preparing the area for placement of concrete forms for the spillway. The contractor submitted cost proposal revisions to the final plan submitted to the regulatory agencies, and because of material cost increases, there will be a budget revision on the agenda of the June 19, 2006 Board of Commissioners meeting. Due to a request from Senator Rand and the property owners of Lake Upchurch, on May 31st an application was submitted for a Clean Water Management Grant. If received, this would assist the property owners and reduce the cost of the total project.

Construction plans and specifications for the Gillespie Street parking lot are currently under review in the Engineering Department. It is anticipated that bids will be let by the end of June.

The landscaping and irrigation work of the Cedar Creek Business Center is 98% complete. The concrete base for the main identification sign was poured and the signed is being fabricated. The permanent electrical meter base and panel should be installed within two weeks.

The Board awarded a contract on the Historic Courthouse Re-roofing Project to Baker Roofing Company in the amount of \$171,162. Contracts are being executed and the work should begin in July.

The contractor has completed paving the roadway for the Cumberland Industrial Center Production Drive Extension. Outstanding work to be completed includes grading and seeding the road shoulders.

Bob Stanger said a change order would be presented to the Board in the amount of \$58,708 for Bordeaux Construction Company to provide 32 additional cages in the large dog kennels at the Animal Control Center. Under the base bid, the contractor provides 32 cages in each of the kennel units; however, each kennel will hold an additional 16 cages. Due to the recent increase in the volume of large dogs being housed in the existing facility and the number of violent dogs which must be kept in individual cages, the Animal Control Director requested additional funds to purchase the extra cages in the new facility. The Board appropriated \$55,000 in the FY2007 budget. However, cost savings can be realized if the County can purchase the additional cages at this time. The difference of \$3,708 can be funded from the project contingency.

MOTION: Commissioner Blackwell moved to recommend to the full Board approval of 32 additional cages for the large dog kennel units of the Animal Control Project. SECOND: Commissioner Council VOTE: UNANIMOUS

4. Other Matters of Concern

James Martin provided an update on a meeting with City management staff and Marshall Isler on the Parking Deck Project. There are many questions, to include the proposed method of financing and the debt payment issue which have not yet been fully answered. The plan will very likely involve whether there will be free parking or paid parking anywhere. He said if the project is to move forward, the Board of Commissioners and the City Council need to appoint representatives to a newly formed Downtown Parking Management Plan Committee. After discussion, it was decided the County Manager would gather additional information and report back to the Facilities Committee at a future date.

The County Manager reported that the Mental Health Department is going to discontinue using the Fuller School facility. The Mental Health Director will send a letter indicating they do not foresee further use of the building. Mr. Martin has been in contact with the Cumberland County School System and requested they take action to transfer this property to the Cumberland County School System. No action will be taken until a letter is received from the Board of Education.

MINUTES OF MAY 16, 2006:

The Planning Staff presented Case P06-19 as a Consent item and recommended approval of the request for the C1(P) Planned Commercial/Conditional Use District and Permit even though the request is not consistent with the Land Use Plan, based on the findings that: 1. The applicant is restricting the use to "convenience store" on the subject property ; and 2. The request is reasonable and if developed in accordance with the application , site plan and ordinance-related conditions, this development will cater to the

immediate neighborhood for the convenient shopping needs of the residents in the area. Ms. Speicher advised the Board that an additional condition was being requested. She stated that approval of a C1(P) District would create a non-conforming structure on the property. The Board approved the addition of an alternate side-yard requirement based on the facts that approval of the requirement would allow use of the structure. Ms. Speicher clarified that the adjacent lot was owned by the same property owner and that the structure was currently existing on the property.

Mrs. Epler made a motion, seconded by Mr. McNeill, to find that the Conditional Use District application is neither arbitrary nor unduly discriminatory, in the public interest and that the Conditional Use District application, with submitted conditions and the additional condition of an alternate side-yard requirement, be approved. Unanimous approval.

Office of the County Attorney

MEMORANDUM FOR BOARD OF COMMISSIONERS' JUNE 19, 2006 AGENDA:TO:BOARD OF COMMISSIONERS

FROM: GRAINGER R. BARRETT, COUNTY ATTORNEY

SUBJECT: CONSIDERATION OF REPORT ON MEETING WITH LOCAL GOVERNMENT COMMISSION REGARDING COPS ISSUE FOR SCHOOL CONSTRUCTION

BACKGROUND: A contingent of representatives from the County and the Cumberland County Schools met with officials of the Local Government Commission on June 13, 2006. County Manager James Martin, Assistant County Manager for Finance and County Attorney Grainger Barrett represented the County. Assistant Superintendent Tim Kimlaw and Finance Officer Ricky Lopes represented the schools. Tim Romocki, Director of the LGC Debt Management Section, and Biff McGilvray, Senior Financial Analyst, represented the LGC.

Initially, the LGC representatives emphasized quite strongly that the LGC is not willing to recommend relying on lottery proceeds at this early stage with only a very limited track record of collections. In their opinion, three years experience will be necessary to allow financially reasonable projections of lottery distributions to jurisdictions. In view of that position, the LGC will require that the governing board of any jurisdiction proposing to issue COPs and intending to repay them from lottery proceeds clearly disclose the worst case circumstance of what the tax rate impact of servicing that debt would be and that such an impact (particularly if it is a tax rate increase) would, in the judgment of the governing board, not be excessive. The LGC would have to make similar findings.

Amy Cannon estimates the tax rate increase that would be necessary to service debt on the proposed COPs to be three and a half cents. The tax rate impact of the additional operating costs associated with the new construction, however, would be an additional estimated 1.7 cents.

The LGC representatives then presented their requirement that the school system must have bids in hand for the predominant portion of any proposed COPs issue, in order to substantially fix construction cost requirements, before submitting the financing to the LGC for approval. This presents several severe constraints for the school system. Of the three new schools proposed, for instance, sites would have to be purchased for two of them and design work (even with standardized designs) would have to be completed before bidding. Bids are often only guaranteed for a thirty day, or sometimes up to 60 day period; because of the often rapidlychanging and sometimes volatile market for construction materials, this tends to increase their bids to protect themselves against sudden changes in materials costs. And the schools intended to phase construction projects over a two year period to avoid placing a substantial number of projects our for bid at one time with a limited number of qualified bidders responding. In the school systems' representatives' opinion, this, too, would likely drive the costs of projects up significantly.

1.

The LGC representatives were adamant that bids would have to be in hand for a majority of the projects for a COPs issue and that the prospects of waiving that requirement were remote. They did note that such a requirement would not be applied by the LGC to a general obligation bond issue that had been approved by referendum. They did, on the other hand, acknowledge that seeking LGC approval of a COPs issue following a referendum that had not been successful would require a very substantial justification and could not be assumed. In reviewing the proposed projects, costs and phasing, they suggested that one alternative would be for either the schools or the County, if feasible, to advance up to approximately \$10 million to get the majority of projects underway and then reimburse those funds from a COPs issue in the spring, 2007.

Without going into the intricacies of statutorily-required procedures, under the best of circumstances meeting the LGC's requirement of having bids in hand to obtain LGC approval of a COPs issue would require intricate scheduling and would necessitate that no unexpected obstacles upset that scheduling. It would be highly challenging and very stressful. In the present circumstances, it casts some serious question on whether it is feasible to expect the schools to acquire sites, accomplish design work and obtain bids by late August, to meet the schedule which has been set.

I note that in today's Fayetteville Observer (Wednesday, June 14, 2006) a story on last night's Board of Education meeting note that the Board of Education's Finance Committee would begin to look at alternatives such as a bond referendum.

RECOMMENDATION AND PROPOSED ACTION: That the Board of Commissioners direct management to review the proposed school construction financing with the school system to determine whether the school system continues to desire to proceed with the COPs structure in light of the LGC's requirements and, if so, on what schedule, and report to the Board of Commissioners; that, following any review of financing alternatives by the Board of Education's Finance Committee and the Board of Education, financing options be presented to the Board of Commissioners' Finance Committee and the Board of Commissioners; further, that the Board of Commissioners authorize the Chairman in his discretion, upon advice of the County Manager and County Attorney, to postpone or cancel the public hearing on a proposed COPs issue presently scheduled for August 21, 2006; and, further, that the Board of Commissioners approve a working group team to continue to develop a schools construction financing program, of Citigroup Global Markets, lead underwriter, Parker Poe and Adams, and Rand and Gregory underwriter's co-counsel, and Hunton and Williams and the Charleston Group, co-bond counsel.

JUNE 13, 2006 DATE:

CONSIDERATION OF SUPPORT FOR PROPOSED CITY OF **SUBJECT: FAYETTEVILLE HOPE VI PROJECT**

BACKGROUND

The Fayetteville Metropolitan Housing Authority is applying for HOPE VI Grant funds. The City of Fayetteville and the County of Cumberland would participate in this effort by financing public improvements with tax increment financing based on increased value of property after redevelopment. At the June 5, 2006 Board meeting, the Commissioners unanimously adopted the Project in concept contingent on approval of the HUD grant funds.

Mrs. Dawn Driggers, Executive Director, Fayetteville Metropolitan Housing Authority is requesting that the County of Cumberland and the City of Fayetteville support the grant application by submitting a joint letter in support of the project, and contingent upon approval of HUD, the creation of a tax increment finance district.

RECOMMENDATION/PROPOSED ACTION

[LETTERHEAD]

[DATE] Ms. Dawn Driggers Executive Director Fayetteville Metropolitan Housing Authority 1000 Ramsey Street Fayetteville, NC 28301

Reference: 2006 HUD HOPE VI Revitalization Application

Dear Ms. Driggers,

We understand that the Authority will submit a grant application to the US Department of Housing and Urban Development, and that the purpose of the grant funding is to revitalize the Old Wilmington Road neighborhood. Among other things, the revitalization plan includes: the construction of new subdivision infrastructure in the neighborhood including roads, potable water supply and distribution, sewerage collection, sidewalks and street lighting; construction of a neighborhood resource center; and the acquisition of infill lots currently under control of the Authority.

The City of Fayetteville and the County of Cumberland, North Carolina, strongly support this neighborhood revitalization effort. The revitalization of the Old Wilmington Road is long overdue, and will have an immense impact on the neighborhood, downtown Fayetteville, and the city and county as a whole.

The City and County want to ensure the HUD's grant funds will achieve maximum impact for the residents of the neighborhood. Should HUD approve the HOPE VI grant, the City and County have jointly agreed to create a tax increment finance district, which is expected to generate \$9 million in bond proceeds over five years to pay for infill lot acquisition, and the construction of new subdivision infrastructure and a portion of the proposed neighborhood resource center.

Sincerely yours,

Anthony G. Chavonne Mayor City of Fayetteville North Carolina Billy R. King Chairman, County Commissioners County of Cumberland North Carolina

CONFLICT OF INTEREST

Section 1. It is the policy of the Corporation that the members of the Board of Directors shall conduct the duties and business of the Corporation free from conflicts of interest or the appearance of a conflict between their private interests and their official duties as a member of the Corporation. Furthermore, no Director shall presume to endorse in the name of, or on behalf of the Corporation, any person, activity or matter without authority of the Board of Directors. The purpose of this policy is to set forth standards of conduct and guidelines for Directors acting as members of the Board.

Section 2. As used in this policy, the following terms shall have the following meanings, unless context clearly indicates that a different meaning is intended.

a. Confidential Information: any information which is not available to the general public which is obtained only by reason of the director's position.

b. Financial Interest: any interest which will provide a monetary or other material benefit to a director, either directly or indirectly. Financial interests of a spouse or child of a director shall be imputed to the director. Any contractor or sub-contractor of the Corporation in which the director or any member of his immediate family has a direct or indirect interest as a proprietor, by ownership of stock or partnership interest, or otherwise, shall be imputed to the director.

- c. Personal Interest: any interest in a matter which would affect the action of the director other than a financial interest, and other than an interest because of membership in or affiliation with, but not employment by a social, fraternal, charitable, service, educational, religious, governmental, health service, philanthropic, cultural or similar nonprofit institution or organization.
 - d. Transaction: the offer of, or the sale, purchase or furnishing of, any real or personal property, or services, by or to any person or entity directly or indirectly, as vendor or vendee, prime contractor, subcontractor or otherwise, for the use and benefit of the Corporation or of such other person or entity, for a valuable consideration.

Section 3. All directors of the Corporation shall be bound by this policy.

Section 4. No director shall improperly use, directly or indirectly, his position as a member of the Board of Directors of the Corporation to secure any financial interest or personal interest for himself or others.

- a. No director shall engage in a "conflict of interest" which is any interest, directly or indirectly, which conflicts with the director's responsibilities and duties of loyalty owed to the Corporation as director.
- b. No director shall have a financial or personal interest, directly or indirectly, in any transaction with the Corporation as to which he has the power to influence corporate action. Contracts which violate this section are voidable at the option of the Board of Directors.
- c. The Corporation expects directors to plan personal and business affairs so as to reasonably avoid situations which might lead to a conflict, or even the appearance of conflict, between director's duties to the Corporation and those persons who utilize the Corporation's services.
- d. A director shall disclose to the Board of Directors any direct, or indirect,

financial or personal outcome of any matter coming before the Board of Directors and shall refrain from voting on any such matter.

e. No director, whether paid or unpaid, shall represent or appear on behalf of any individual either personally or through an associate or partner, against the interests of the Corporation in any action or proceeding in which the Corporation is a party, without the express consent of the Board of Directors.

Section 5. No director shall disclose confidential information concerning personnel, property, government or affairs of the Corporation. No director shall use confidential information to advance his own personal or financial interest or the financial or personal interest of any member of his immediate family. Nothing in this section shall be interpreted as prohibiting the disclosure of information required by law to be disclosed. At the discretion of the Board of Directors, all directors may be required to sign a confidentiality agreement.

Section 6. No director shall accept from any existing or potential customers or suppliers of the Corporation any gifts or gratuities which are not gifts based upon obvious family or personal relationships, special occasions, gifts of normal value, business entertainment or customary courtesies associated with fostering better business relations, or discounts available to the general public, or unsolicited advertising or promotional materials that are available to the general public, such as pens, calendars or other similar items. A "gift" includes any type of gratuity, favor, service, discount or price concession, loan, legacy or devise (except from a relative), fee, compensation, cash, securities, real property or anything of monetary value from anyone in return for any business, service or confidential reformation of the Corporation.

ARTICLE XIII

MISCELLANEOUS PROVISIONS

Section 1. The current edition of *Roberts Rules of Order* shall be the final source of authority in all questions of parliamentary procedures when such rules are not inconsistent with the Charter or By-Laws of the Task Force.

Section 2. The corporate seal of the Corporation shall consist of two concentric circles between which is the name of the Corporation and the date of the incorporation, and in the center of which is inscribed CORPORATE SEAL; and such seal, as impressed on the margin hereof, is adopted as the corporate seal of the Corporation.

Section 3. The Chair and Executive Director are the only official spokespersons for the Corporation. No other officer, director or member shall have, nor shall purport to have, official standing to speak on behalf of the Corporation without the prior approval of the Executive Committee or the Board of Directors.

Section 4. These By-Laws may be amended or replaced and new By-Laws may be adopted only by affirmative vote of a majority of the Board of Directors.
