1. Presentation of the UNC Tomorrow Initiative (Norma Houston, Executive Director; Tony Caravano, Deputy Director and John Noor, Research Assistant).

Mr. Tony Caravano, Deputy Director, reviewed the UNC Tomorrow Initiative, noting the purpose of this initiative is to determine how the University of North Carolina can respond more directly and proactively to 21<sup>st</sup> century challenges facing North Carolina now and in the future. Data was collected through visits to 17 UNC campuses and 11 community listening forums held across the state. Approximately 2700 people attended the forums. In addition 11 faculty forums involving all 17 UNC campuses were held and an online survey was posted to which 6,700 people responded.

Some of the major findings from these forums include:

- UNC must educate its students to be successful in the 21<sup>st</sup> century;
- Higher education must be made available to all North Carolinians;
- By 2014, North Carolina will need over 400,000 new workers with at least a bachelor's degree (NC colleges/universities are expected to produce only 254,000 of these workers);
- 60% of available jobs in the US require skills possessed by only 20% of its workers;
- Almost 50% of US high school students lack basic competence in math;
- By 2012 more than 40% of manufacturing jobs will require post-secondary education;
- 63% of employers nationally think most college graduates lack skills needed to succeed in today's global economy;
- 61% of college graduates think their college education did not prepare them for success in today's global economy;
- Writing weaknesses of professional employees cost American businesses \$3.1 billion a year;
- There are 200,000 students enrolled in UNC campuses, one-third of these students come from Wake, Mecklenburg, Guilford & Forsyth counties;
- Minority students make up 43% of total public school enrollment in our state – and 85% of the enrollment in North Carolina's 50 lowest performing public schools;
- It takes \$92,000 to house one juvenile offender in a Youth Development Center;
- A full four-year scholarship to UNC Chapel Hill for one student will cost \$60,000;
- A child's ability to achieve academically is influenced by income, region, parent's education level, community resources and social influences, not the color of his/her skin or gender.

Mr. Caravano noted that UNC is committed to meeting the challenges. Upon receipt of the UNC Tomorrow Commission's report, the UNC Board of Governors and President Bowles will begin working with UNC institutions, affiliated entities and General Administration to develop specific plans for how UNC will respond to the Commissions' recommendations and the challenges facing North Carolina now and in the future.

Some commissioner observations include:

- we need a culture change;
- universities need to support each other when new opportunities arise;
- citizen education of these facts is critical to addressing change;
- answers have to come not only from the university system but from the public as a whole;
- need to implement programs, policies, etc. to address the issues.

2. Presentation of the FY 2007 Annual Audit by Michelle Loyd Thompson, CPA, Partner, Cherry, Bekaert and Holland, L.L.P.

Michelle Thompson reviewed the Audit with the Board. She noted the County has received an “unqualified opinion” or “clean” opinion. This represents the highest level of assurance. The audit may be viewed on the County’s website. She noted a story in the newspaper which referred to some issues with the school system funds. She said that there had been no improper expenditures and that the audit comments were intended to alert county officials to adjust procedures regarding drawdown of lottery funds, which was a new situation, as well as to monitor certain grants to track performance. Note: Amy Cannon, Assistant Manager for Finance, noted she has spoken to the Board of Education and they are working out a formal procedure for what had previously been done informally to respond to the comments.

## RESOLUTION

WHEREAS, a petition has been submitted to the Cumberland County Board of Commissioners (the "Board") by an adjoining landowner to close Gray Street located off of the northern margin of Shaw Road (formally Bonnie done Road) in Carvers Creek Township, in Cumberland County;

WHEREAS, following proper notice, the board held a public hearing on the question of the closing of such street on the 17<sup>th</sup> day of December, 2007, and heard all interested parties who appeared with respect to whether the closing would be detrimental to the public interest or to any individual's property rights; and

WHEREAS, following the public hearing the said Board found and determined that such public street is not under the control of the NC Department of Transportation; that no person would be deprived of reasonable means of ingress and egress to his property by such closing, but that the reservation of certain easements would be appropriate and desirable; and that it is therefore not contrary to the public interest to close such street, subject to the reservation of the easements described below;

WHEREAS, the Cumberland County Planning Department approves of the closing provided the following conditions are complied with:

"The property owner who will be titled as the owner of the land within the right-of-way must ensure that a "No Approval Required" recombination plat be approved by the Planning and Inspections Department and recorded in the Cumberland County Registry, thus absorbing the land within the right-of-way to be closed into the adjoining properties".

NOW, THEREFORE the Cumberland County Board of Commissioners hereby RESOLVES, pursuant to authority granted by G.S. 153A-241, that the public street more particularly described below be, and it is hereby closed, subject, however to the continued dedication and preservation of an easement therein for existing and future utilities, and of an easement therein for public safety emergency vehicle access:

Beginning at the southwest corner of Lot 4 as shown on Plat Book 14, Page 9, entitled Property of Brooks Peele as recorded in the Cumberland County Registry; thence with the eastern most margin of Gray Street North 435.6 feet to the northwest corner of Lot 10 of said plat; thence with a northwestern direction 22 feet along the southern property line of Charles M.

Dent property (Book 5178, Page 888) to the northeast corner of Lot 11 of said plat; thence with the western most margin of Gray Street South 435.6 feet to the southeast corner of lot 3 of said plat; thence with the northern margin of Bonnie Doone Road (now Shaw Road) 22 feet east to the beginning.

And the Board further RESOLVES that a certified copy of this Resolution be recorded in the Cumberland County Registry.

## REGULAR AGENDA

5. Consideration of Additional School Construction Projects to be Included in Sales Tax Reimbursement Agreement.

**BACKGROUND:** In October, 2007, the Board approved a Sales Tax Reimbursement Agreement with the Board of Education for reimbursement of state sales tax on school construction projects. At that time, the only project for which reimbursement was requested and approved was the new school construction project for Gray's Creek Middle School. The Board of Education has now submitted additional requests for classroom addition projects at Cliffdale Elementary School, Glendale Acres Elementary School, Honeycutt Elementary School, Owen Elementary School and Eastover Central Elementary School.

**ACTION:** Consider whether to add projects listed above to the Sales Tax Agreement dated October 15, 2007 between the County and the Board of Education.

Commissioner Billy King questioned the need for so many additional classroom addition projects. He noted that our school system is losing (drop-outs) at the rate of 1,000 – 1,100 kids per school year. He also noted the school continues to expel and suspend kids on a regular basis. He suggested the Board of Commissioners and the Board of Education talk about this issue.

**MOTION:** Commissioner Council moved to approve adding the above projects noted above to the Sales Tax Agreement dated October 15, 2007 between the County and the Board of Education.

**SECOND:** Commissioner Henley

**DISCUSSION:** Chairman Blackwell noted that the Board will be meeting twice with the Board of Education during 2008. He suggested this is an issue we can discuss at the meetings.

**VOTE:** FAVOR: Commissioners Edge, Henley, Blackwell, Council, Wheatley, Melvin

OPPOSED: Commissioner King

6. Interim Report on the Accessibility of Tax Records on the Cumberland County Website.

James Martin, County Manager, noted that there are some erroneous errors in information for the City of Fayetteville. The errors are a result of the County not receiving info from the City on a timely basis. A system has been set up with the City to hopefully alleviate some of the issues. In addition, another concern that was expressed at the last meeting was the down-time for the website. The site is down between 12:00AM – 2:30AM in order to compress files and free up

space. In addition, the system is down between 6:30AM and 7:30AM in order to maintain the system. Mr. Martin noted that our information is “real time”, explaining that if a change is made at 10:00AM, you will see that change at 11:00AM when you log in. Mr. Martin noted that there will be times when the system is down and that the Information Technology Department is doing all it can to make this down time as infrequent as possible. A phone number is published on the web page that can be used to check on the down time for the system.
