Pat Whitfield – Ms. Whitfield spoke as an advocate for children and the Public Health Dental Clinic. Ms. Whitfield stated without the Dental Clinic, children may not have the opportunity to get dental work done and there may be transportation issues if children have to go to other facilities. Ms. Whitfield asked the Board to think about the effect closing of the Dental Clinic will have on the community.

Brandon Akins – Mr. Akins stated he is a clinical therapist and cannot believe the County is thinking about closing the Law Library. Mr. Akins stated pro se litigants utilize the Law Library and to close it is like denying them due process.

David Spurlock – Mr. Spurlock spoke on behalf of the Public Health Dental Clinic, those who lost jobs and therefore lost their insurance and children who fall through the cracks. Mr. Spurlock stated he has taken his children to the Dental Clinic and pulling funding is a bad idea. Mr. Spurlock asked the Board to reconsider.

There being no further speakers, Chairman Adams closed the public hearing.

Chairman Adams thanked the speakers and stated the Board of Commissioners will take their comments into consideration.

MOTION: Chairman Adams moved to recess the Board of Commissioners' meeting and reconvene the meeting in room 564.

SECOND: Commissioner Evans

VOTE: UNANIMOUS (7-0)

Chairman Adams called the reconvened meeting to order. Discussion followed regarding comments made during the public hearing. Commissioner Keefe asked whether the Department of Social Services had any programs that would help the Cumberland County Coordinating Council on Older Adults. Brenda Jackson, Social Services Director, stated individuals can always apply for the income-based Food and Nutrition program through Senior Services, but the Department of Social Services does not have a Meals-on-Wheels program. Commissioner Keefe asked staff to look into this.

Chairman Adams stated the Southeast North Carolina Reading Radio, Cumberland County Veterans Council, Cumberland County Coordinating Council on Older Adults, the Boys and Girls Club and the Child Advocacy Center stood out to him and he would like to find funding for them.

Discussion followed about the Cumberland County Coordinating Council on Older Adults' Meals-on-Wheels program. Commissioner Keefe pointed out that the lump sum funding given to the Cumberland County Coordinating Council on Older Adults is not contingent on its funding any particular program and it is up to the agency to determine how the funds are spent. Commissioner Keefe asked about other sources of funding for the agency. Ms. Cannon stated she will make that information available.

Chairman Adams referenced letters sent to some of the non-profits in April notifying those receiving community funding of potential reductions and stated some of them already had budgets and commitments lined up so funding cuts could make it difficult for them.

Discussion continued about balancing the budget with additional revenue and/or reductions in service levels and positions. Commissioner Faircloth stated he is currently looking for revenue neutral with cuts equal to 4 cents or approximately \$8 million. Commissioner Faircloth stated his thinking is if the budget is passed at the recommended total tax rate of 82.2 cents, there is likely to be a big surplus at the end of the next year. Commissioner Keefe referenced the large number of requests for repairs and maintenance and those authorized at 100%, and asked if they could be prioritized. Commissioner Keefe stated his goal, if possible, is to get to revenue neutral. Commissioner Boose posed questions about possible cuts to some of the maintenance and renovation items as a means to fund other items.

Commissioner Keefe stated with the revenue neutral tax rate and the proposed tax increase by Fayetteville, this community will have the highest tax rate in the state. Commissioner Keefe stated for purposes of economic development, this community has to remain as competitive as it possibly can. Chairman Adams stated he does not necessarily want to have the highest rate but at the same time he believes that if the County does not take care of what it has and prepare for the future, the Board will return next year and the year after to do the same thing.

Chairman Adams suggested that commissioners meet with management to get clarification on potential reductions and/or strategies and bring them back to the next budget work session.

MOTION: Commissioner Evans moved to adjourn.
